### ➔ FROM THE AGRONOMY DESK ➔

### Tar Spot in Corn

Tar spot appears as small, raised, black spots scattered across the upper and lower leaf surfaces.

Ideal conditions for tar spot include temperatures between 15° and 22° Celsius and high relative humidity (greater than 75%) leading to leaf wetness.

Now that tar spot is established in southern Ontario, it's critical that you identify tar spot in your fields as early as possible.

Fungicide applications with Delaro Complete (plus Proline for lower DON levels) are the best way to prevent and suppress the yield robbing effects of Tar Spot.

Contact the Agronomy office for more information! 519-529-7953 Option 3

July 2025

To all our valued Gas Bar Customers,

If you have one of our fuel cards, please review the Cardlock Safety Rules as well as Emergency Procedures listed below;

Safety Rules

- No smoking, open flame or use of cell phones within 10ft of the dispenser
- Vehicle ignition must be turned off while fueling
- Remain outside the vehicle during fueling to avoid creating static charge
- Only CSA approved portable containers may be filled
- Only authorized trained persons to operate the dispenser
- System must not be used if an unsafe condition is observed
- No pump shall be left unattended while in use
- No devices are to be used to hold the nozzle open while product is dispensed
- Only 1 nozzle is to be in operation at any one time per operator
- Reduce product flow when tank nears full
- Do not overfill tank
- Return nozzle to dispenser when fueling is complete

In Case of a Spill

- Stop the flow of product by releasing the nozzle trigger, shutting off the dispenser or activating the EMERGENCY SHUT-OFF located to the right of the building main entrance
- Use the absorbent material available in the Spill Kit beside the pumps to contain spills until such time as the proper authorities have arrived
- Direct people away from the spill
- Remove all sources of ignition
- Avoid using metal or plastic shovels or pails
- Call the emergency contact numbers posted at the cardlock pumps, or notify a Lucknow Co-op employee
- Wait for emergency response team
- Prevent other customers from using the cardlock system until emergency response team arrives

Emergency Contacts:      Spill Action (24hrs): 1-800-268-6060  
   Emergency Response: 911

If you do not have one of our fuel cards, give us a call today (519-529-7953 option 1) to get 24hr access to over 70 cardlock locations across Ontario.
