WINTER FUEL DELIVERIES - REMINDERS

We are well into the busy season of propane and furnace oil deliveries to keep your home & businesses warm & cozy

A few reminders to make this a smooth process:

- * read your tank gauge often, know how much fuel is in your tank
- * keep your laneways plowed so we can access your tank
 - * use laneway markers to help guide us
- * if house is unoccupied, have someone monitor your tank level often
 - * call us when your tank level is at 20-25%
- * when leaving an after-hours message, be sure to leave your name, number, delivery address & current tank level

519-529-7953 option 1

Please Note: With that Big Winter Storm we recently had, If you have used your Generator in a Power Outage, don't forget to check your tanks and update us with an accurate reading so you don't run out!
